# [Signal and Fire Alarm Equipment and Services] (Detectors, Automatic Fire) (Smoke-automatic Fire Detectors) Smoke-automatic Fire Detector Accessories

### **See General Information for Smoke-Automatic Fire Detectors**

A smoke detector accessory is a device employed to supplement smoke detector operation when connected as part of a fire alarm system. The interconnection is indicated on the installation wiring diagram associated with the detector.

Authorities having jurisdiction should be consulted before installation.

Where model numbers are indicated in the Listings, 100 percent of the manufacturer's production for those models are required to be labeled. Where model numbers are not indicated, the manufacturer is not obliged to label 100 percent of production.

The basic standard used to investigate products in this category is UL 268, "Smoke Detectors for Fire Protection Signaling Systems".

The Listing Mark of Underwriters Laboratories Inc. on the product is the only method provided by UL to identify products manufactured under its Listing and Follow-Up Service. The Listing Mark for these products includes the UL symbol of Underwriters Laboratories Inc. (as illustrated in the Introduction of this Directory) together with the word "LISTED", a control number, and the following product name: "Smoke-Automatic Fire Detector Accessory".
